

CHANGING LIVES FOR THE BETTER

Husband and wife team, Neresh and Usha, are living out their dream...

DR BEHARI

The price of an attractive smile should be within everyone's reach no matter what nature provided them with. This belief lies at the heart of what drives principal dentist Dr Neresh Behari.

'My main interest is creating smile makeovers which can involve simple tooth whitening through to placing veneers, crowns, bridges, implants and clear braces. Of course, not everyone will have the same requirements. Some

patients seek Hollywood-style perfection while others simply want the confidence that comes from having brighter, whiter, straighter teeth.'

LIVING THE DREAM

'My dream was to provide state-of-the-art treatments and an overall service that would transform smiles – and that is what I've done.

'I was born in South Africa and qualified as a dentist there in 1998. I met my wife Usha, who is also a dentist, while we were at university. We decided to travel before we opened our

practices together. We moved to England because it is a central location to travel to and from.

'I decided to pursue my dream and started attending courses on cosmetic dentistry as it is the main aspect of dentistry that I am most passionate about. In the midst of it all my wife and I decided to start a family and we now have two children, Nikhila, six, and Kirav, four. My wife and I are partners both at work and at home and we make a fantastic team.'

PUTTING THE HOURS IN

'To make sure I was up on all the latest treatments I completed many courses including advanced training with the reputable Dr Christopher Orr in the UK, who was the previous President of the British Academy of Cosmetic Dentistry, and Dr Larry Rosenthal in the US, who pioneered porcelain veneers, to name a few.

'I still attend many training courses now. I think it is very important to continue to learn and advance myself in dental techniques, as they are changing all the time. I pride myself on being at the cutting edge of dental technology.

'I am an active member of many dental organisations including being a full member of the British Academy of Cosmetic Dentistry.'

WHAT I LOVE THE MOST

'What gives me the most satisfaction is the role I play in changing people's lives. A great smile is vital to self-esteem.

'We treat a wide range of patients and occasionally have patients who have been diagnosed with a major illness. Having been diagnosed, they decide that they would like to start paying more attention to their appearance. Having dental treatment really transforms how they look, and even though they are unwell it can make them feel happier with themselves.'

WHAT'S IN THE PIPELINE?

'I am striving to be the leading cosmetic dentist in the South offering the best treatments and using the most up-to-date methods in order to improve people's smiles. People's perception of dentistry is changing all the time and having a good smile is important now and also more attainable – and that's what I find exciting.

'I consider myself to be in a fortunate position as I am able to change people's lives by improving their smiles.'

Dental Studio

For more information about the range of treatments available call us on 02392 254234 or 01243 532992.

We're located at St Georges Walk, Waterlooville, Hampshire PO7 7TU and at 3B, Little London, Chichester, West Sussex PO19 1PH.
